DISCHARGE SUMMARY

Riverside General Hospital

Patient	Hassan Williams
MRN	4177874
DOB	28/11/1974
Admitted	25/05/2024
Discharged	01/06/2024
Consultant	Dr V. Reddy

Reason for Admission

Hassan Williams presented with markedly elevated blood glucose (fasting 11.4 mmol/L, HbA1c 8.9%) and symptoms of decompensated type 2 diabetes mellitus.

Hospital Course

Managed with insulin infusion and close glucose monitoring. Electrolytes corrected. Clinical condition improved steadily prior to discharge.

Discharge Medications

Medication	Dose & Frequency
Empagliflozin	10mg once daily

Follow-up Plan

GP review within 1 week. Diabetic clinic review with repeat HbA1c in 4 weeks. Strict diet compliance advised. Home glucose log to be maintained.
